

YP20C

Ideal for agriculture and market gardening, YAMAHA motor pumps are reliable and efficient. Robust and lightweight, they have the advantage of not requiring priming, and are therefore effective from the start.

TECHNICAL CHARACTERISTICS	YP20C
PUMP	
Connection Dia	2inch
Max. Suction Head (m)	8
Max. Delivery Volume (L/min)	620
Total Head (m)	27
Connection Thread	Outer Pipe Thread
MOTOR	
Operating Time (h)	2
Fuel Tank Capacity (L)	3.6
Fuel	Unleaded petrol
Rated Output (kW)	3.1 (4.2PS) / 3,600rpm
Displacement (cm ³)	179
Engine type	4 temps
DIMENSIONS	
Dimensions (mm)	489 x 387 x 391
Dry weight (Kg)	25.2
EQUIPMENTS	
50 mm (2") connections	✓

Always wear a helmet, eye protection and protective proper clothing.
CAMI encourages you to ride safely with responsible manners that comply with all laws while respecting the environment.
