

YAMAHA generators are among the most reliable and efficient products. Designed for domestic and professional use, YAMAHA generators have a robust design that allows them to face any type of environment. Available in gasoline or diesel engines and with a power ranging from 1 to 26 Kva, these generators meet multiple needs.

EF5500EFW

TECHNICAL CHARACTERISTICS	EF5500EFW
GENERATOR	
Generator type	Brushless, synchronous / single-phase AC
Maximum Power (Kva)	4,5
Rated Output (Kva)	3,8
Frequency (Hz)	50
Rated Voltage (V)	220
MOTOR	
Noise Level (Db)	70,7
Autonomy (H)	12
Fuel Tank Capacity (L)	28
Startup system	Manual / Electric
Displacement (cm ³)	358
Engine type	4-stroke petrol
DIMENSIONS	
Dimensions (Lxwxh) in mm	670x535x565
Dry weight (Kg)	90
EQUIPMENTS	EF5500EFW
Plug wrench	✓
Handle	✓
Owner's manual	✓
