

EF7200E

YAMAHA generators are among the most reliable and efficient products. Designed for domestic and professional use, YAMAHA generators have a robust design that allows them to face any type of environment. Available in gasoline or diesel engines and with a power ranging from 1 to 26 Kva, these generators meet multiple needs.

TECHNICAL CHARACTERISTICS	EF7200E
GENERATOR	
Generator type	Brushless, synchronous / single-phase AC
Maximum Power (Kva)	6
Rated Output (Kva)	5
Frequency (Hz)	50
Rated Voltage (V)	220
MOTOR	
Noise Level (Db)	71
Autonomy (H)	11
Fuel Tank Capacity (L)	28
Startup system	Manual / Electric
Displacement (cm3)	358
Engine type	4-stroke petrol
DIMENSIONS	
Dimensions (Lxwxh) in mm	670x535x565
Dry weight (Kg)	93
EQUIPMENTS	
Plug wrench	-
Handle	-
Owner's manual	-
